Successful Solution with Endođru

# Who is Endođru?

E.N-Dogru Makine started as a spare parts supplier to the automotive industry 20 years ago in a small workshop. We have carried the discipline and sustainability feature brought by the automotive industry to our production of furniture metal parts and spare parts, which we started in 2015 as our company. Today, E.N-Dogru Makine is a preferred company in the special requests and projects of its customers. Our company, has a closed production facility of 6000 square meters, which has the ability to perform painting, polishing and welding processes in machining and furniture metal spare parts supply for the automotive sector. E.N-Dogru Makine exports its products to more than 15 countries. We are happy to serve to our customers with experienced dynamic colleagues staff in the light of our determination and experience, which we have adopted as a principle.
